

Kitchen Culture Kits Inc., in cooperation with the Home Tissue Culture Group
and the Artisans at the Dahmen Barn,
Present:

Hands-On Workshop for Plant Propagation

Plant Tissue Culture for the Home and Classroom

*For hobbyists, teachers, students, Master Gardeners, nurserymen
and anyone who loves/collects plants*

Cost: \$99

(20% discount teachers/students = \$79)

Date: March 28, 2020 9 am-4 pm

(To register: go to

<https://www.artisanbarn.org/events-classes.php>)

Where: Artisans at the Dahmen Barn, 419 N. Park Way, Uniontown, WA
99179 509-229-3414 info@artisanbarn.org

- Have a favorite plant that you would like to mass produce?
- Love to watch plants grow? Are you a collector? Scavenger?
- Need something interesting for science fair or a school project?

Learn the basics of plant tissue culture using a microwave and supplies found in your kitchen and classroom. In this all-day workshop, you will make your own media, assemble a “clean box”, disinfect and culture plant leaves, axillary buds and seeds, and discuss trouble shooting and resources.

*You will take home sample cultures that you create in class plus a handout with basic instructions and FREE samples to use at home. **All media and materials for the workshop will be provided.** No prior knowledge required – only an interest in plants!*

Please dress casual – we will work with bleach, alcohol, hydrogen peroxide. Bring a lunch. Water and snacks provided.

Contact Carol Stiff at carolstiff@kitchenculturekit.com for further information or if you would like to bring a favorite plant or for a free handout. See: www.kitchenculturekit.com and www.hometissueculturegroup.org
